

Please reject NAB's petition 04-160. As an over the road truckdriver, it is much more convenient for me to be able to check weather/traffic in an unfamiliar city with a known channel than to search/scan for a "local" channel, which normally only tend to give traffic reports during morning / evening rush hours. XM's 24 hour a day reports have been a great assistance on more than one occasion. Additionally, has someone cancelled free enterprise or is the NAB unable to stand a little competition?
